The school was held in the L'Britain Hotel, which was the first of its kind in the province.

FACTS FOR FARMERS

By "the farmer."

Wool Production

Wool production in Canada in 1944 amounted to 13,720,000 pounds, an increase of 1,440,000 pounds over that of 1943. The number of sheep on farms in Canada in 1944 was 1,440,000, an increase of 1,440,000 over that of 1943.

HEART OF A SHEEP

The heart of a sheep is a small organ, but it is very important. It is the heart that pumps the blood through the body. The heart is located in the chest cavity, between the lungs. The heart is made of muscle and is about the size of a fist.

GETTING THE HARNESS READY

The harness is an important part of the sheep's equipment. It is used to pull the sheep and to carry the wool. The harness is made of leather and is very strong. It is important to keep the harness in good condition and to replace it when it is worn out.

Several thousands of copies of plans of farm labour-saving devices have been distributed to sheep raisers and other interested parties.

COCKROACH CONTROL

Cockroaches are common pests in homes and businesses. They are small, brown insects that can live for several months. They are very hard to kill and can spread disease. It is important to keep homes and businesses free of cockroaches.

PREVENT PLANT DISEASE

Plant disease is a common problem for farmers. It can be caused by many different things, including insects, fungi, and bacteria. It is important to prevent plant disease by using good farming practices and by using pesticides when necessary.

BEES IN CANADA

Bees are important to the Canadian economy. They produce honey and beeswax, which are used in many different ways. Bees also play a role in pollinating crops. It is important to protect bees and their habitats.

THEIR ROAD, WOULD TO

Two million or more motorists from the State visit us each year... thousands for the sheer beauty of our countryside. Let's see to it that our hospitality matches the perfection of our lakes and hills.

What can I do?

The answer is—plenty! Here are some of the things anybody can do. The suggestions come from a well-known Ontario hotelman.

1. Find out about what your own neighbourhood offers and become a booster.

2. Write your friends and relatives about Ontario, show them when they come that you're really proud of your province.

3. Try to make all our visitors plan to come, and be really enthusiastic about it.

4. If they ask for information or directions, take time to answer them fully and graciously.

5. In any business dealings you may have with them, remember Canada's reputation for courtesy and fairness depends on you.

6. To me, as it is, just follow the "Golden Rule".

On Sidney Bay Hill, Prince Edward Island, Ontario.

It works both ways! They treat us royally when we visit them... we can do the same and return the compliment. Remember that it costs money to take a holiday, so let's see they get a good return for every penny they spend in Canada.

and Her Wardrobe." Following Conference time, was Patrol Inspection, in which the Iris and Daisy Patrol were both awarded five points for good uniforms. The Daisy's representatives won their marks, and the Iris won the general inspection. Upon dismissal, the Guides marched into Pow Wow formation, and waited eagerly for the draw to be made. Mrs. Cruthers, former Captain of the Company was present for this occasion, and the name drawn was that of—

"Controlling The Atomic Bomb"

Subject Of Timely Address

"Controlling The Atomic Bomb" was the subject of a timely and enlightening address delivered by Mr. C. H. Partridge, President of the Christian Association at a public meeting held in the Association Room, of the Daily Post

[illegible]

which we live that the first use of the bomb was and is used to destroy life and property, consistent therewith. When the war overseas ended the war on the home front, which created it, broke out with greater violence. The world was in a state of starvation, and England suffers from her efforts to relieve her, the best the labour party can do is to strike at the Ports of England, and tie up the shipping, and thus cause suffering for more money and materialism. There must be many professed Christians among the strikers. How does the Lord feel about this picture? In these war-torn Africa

members behind their organizations, and do not let their individual responsibilities divide them. How can we be good and society for what they do?

When a Nation divided aid in establishing World Unity and Peace and the Church divided in establishing them at home?

Is not the immediate need to find out how men can work together by first finding out that it is themselves who are not cooperating with their fellow?

Everywhere, to-day, by Governments, by Secularistic Organizations, and even in the Church men are being taught to "do as you would be done by" their fellow-men, which she attempts to bind around the Nation in a renewed effort to establish peace and the world.

The Dogma of "do as you would be done by" is the attempt to establish World Revolution based through. This time the effort is outside the Church.

Men are being taught to divide the group, instead of further to unite.

And still it is a battle of Organizations. If Organizations fail what can be done? The individual? But who can be individual? Men are being taught to apply the Nation or the world to attain Unity amongst Men, and peace and good-will.

by themselves.

And that is the insight at the present day in the minds of strikers of—

—Monesty or respect for the rights others?

We see organized effort to "pass the buck" of the unparalysed loss of money and materialism to their neighbours indeed more than that to "make money" for sections at the expense of the general public.

Men are surely killed to what is going on around them.

It was exactly the combined demands made by Labor and Socialism on the Democratic Government of Germany that paved the way for

... moved by numbers nor majorities! The few have always led in the Van der Meer.

What can one Man do when absolutely united with God? With Christ did And why have the Organizations that claimed to represent Him failed? What was it in the nature of the self of all of human relationships that rendered them in the multiple cell or organism as failed.

God is sending notice on the world that He must find an answer to the problem of the struggling Man.

If established by individuals who voluntarily elect to use Liberty

And now in the same way we are paying the way for World War III. Going farther back, the Early Christian church set itself strenuously and sincerely to attain Unity amongst Men, and the Peace that cooperate with God, in order to co-operate with man, then Organizations will be established by the individuals who do not dodge their responsibility for what they do and use Organizations as a mask for wrong doing.

BY R. J. DEACHMAN
There appeared recently in a letter from Mrs. William Schrag of

"It seems that all we hear about these days is Strikes! Strikes! and more Strikes! 'More pay for less work!' I often wonder what all these strikes think I doubt if they think much, or deeply when they vote to strike for their demands.

They honestly believe their actions are for the good. They really think they are getting less than their share of the income of the nation as a whole? Do they foresee the result of their demands if met—namely, a more economic life of the community? Or are they just saying what they can at the present moment, heedless?

Apparently the only large group in the country not in a striking mood is the farm population. The farmer seems to be satisfied. He is enjoying a position of economic parity—a position in which his returns for a 12-hr. day (plus the

"Wouldn't that be a happy situation? In conclusion, will we be against the 'closed shop'—for free trade, and believe that if all people are Christians, the world would be a much better place. I would especially be depending properly such as is possible for the imagination to conceive."

"I ask you to accept this little gift as a reminder that we still have a long way to go. I hope I shall share your joy and sorrow and hope you may have much happiness in our new home. Signed on behalf of your neighbours and friends."

Mr. and Mrs. Allgood thanked their friends for their kindness and gift, thanked Mr. and Mrs. Allgood.

Fred Johnson
Mr. Halliard Sproul presented

the extraordinary demand for children's underwear, sleepers and other nightwear cannot be fully satisfied for some months yet," Donald Gordon says. "The demand for these items is still high and it is a scarce item to supply the world over."

and T&E. Borden's answer to "Children's underwear in short supply in relation to the war effort" is that the War Production Administration (WPA) has not yet received Mr. Gordon's list. However, the short supply is partly due to the fact that the War Production Administration is working on the basis of conservation of industry on a "use it, lose it" basis. The War Production Administration is working on the basis of conservation of industry on a "use it, lose it" basis. The War Production Administration is working on the basis of conservation of industry on a "use it, lose it" basis.

"Churchill Will Visit United States in January"

Winston Churchill Will Visit United States in January

(BRITISH UNITED PRESS)

Winston Churchill, former prime minister of Great Britain, will come to the United States for a vacation later in January. The White House said today that Churchill is making a tour of the continent of his boyhood, Lord Moran, that he have a complete rest and spend at least a month in a warm climate. He will go to Florida during February to stay at the home of Col. Frank Clark of Quebec.

Churchill has accepted the invitation of Westminster College, Fulton, Mo., to deliver an address at West's annual convocation on March 5. The White House said President Truman had endorsed the invitation and would introduce Churchill to the college audience.

Churchill will travel by sea. He expects to leave England for New York about the middle of January. John Amery broken in body and spirit was hospitalized in Washington prison today for broadcasting Nazi propaganda in betrayal of his king after a death cell reconciliation with his famous political friend Leopoldo G. Dore.

The 33-year-old son of the former Indian Secretary went to his death about 9 A.M. in the final southeast London prison barely a mile from his father's last house. At 9:08 A.M. a notice was posted on the prison gate. "The judgment of death was this day carried out on John Amery."

REEVES OF OPS, MARIPOSA, EMILY ENTERTAIN COUNCILS AT BANQUET

The Reeves of Ops, Mariposa, and Emily, and the Councils and officers who received their appreciation of the Reeves as hosts. Mrs. Victor McCreary, Reeves, M. P. for Victoria, who were asked to say a few words at the banquet, were Dec. 19.

The Chairman, Mrs. W. E. Wilson, and the Treasurer, Mrs. J. P. Wilson, were also present. The Reeves of Ops, Mariposa, and Emily, and the Councils and officers who received their appreciation of the Reeves as hosts. Mrs. Victor McCreary, Reeves, M. P. for Victoria, who were asked to say a few words at the banquet, were Dec. 19.

LINDSAY MAN AWARDED HOLLAND'S MERITORIOUS CROSS FOR SERVICE

Expatriated to Live in Halifax Awarded the "Lady Invaluable" by the British Government. The British Government has awarded the Meritorious Cross for Service to Lindsay, who served in the British Army during the war. The award was made by the British Government in recognition of his services during the war.

EDITORIAL

A ONE-YEAR TERM FOR "COUNCIL"

At the coming elections the citizens of Lindsay will have an opportunity to vote down the Lindsay City Council. The Council has been in existence for a long time and has brought into existence to extend the life of Council and create what is known as the stagger system of municipal appointments.

It is becoming more and more apparent that a council which has been in existence for a long time and has brought into existence to extend the life of Council and create what is known as the stagger system of municipal appointments.

--THE NEWS IN BRIEF--

Items of General Interest Condensed For Easier Reading

BUTTER RATION ONE QUINCE AFTER NEW YEAR'S

In a press release today the Prices Board at Ottawa has indicated its intention of reducing the butter ration to one quince after New Year's and probably extending through April.

The plan will mean that Canadians will get six ounces per person per week instead of seven ounces per person per week as it now stands. The cut will be effected by mixing a ration of one quince with a ration of one quince.

Butter production in Canada is reported down 750,000 pounds from last year.

RELEASE POINTS CUT BY TEN

Defence Headquarters at Ottawa has announced a ten per cent cut in the number of release points required by the service.

The service will now have only 75 points whereas unconditional release points were 85.

SECOND BEAVERTON MAN DIES

The death in hospital of Percy Vye, of Beaverton, brings to two the number killed in the railway crossing collision Wednesday at Beaverton.

The driver of the car in which Vye was killed was also killed.

FENELON FALLS CAFE PROPRIETOR LEARNS

Mr. Eddie Wong, proprietor of Wong's Cafe, Fenelon Falls, has just received the news that his mother had been murdered by a criminal.

The message came from Mr. Wong's nephew and due to the situation in China could not be brought to him.

AOD VICTORIA COUNTY RESIDENT DIES

Isaac Heisterberg died in Fenelon Township, Victoria County, in his 81st year.

He was born in Fenelon Township, he farmed in the community and was a member of the United Church.

He was a member of the United Church. He was a member of the United Church.

ATOMIC POWER IN PEACE

Bomb Is Only a Beginning for Atomic Scientists; Problem Is to Find Out What Other Reactions Work

This is the last of six dispatches by Peter Eason, chief of NEA's Washington Bureau, outlining the future of atomic power on a world scale.

By PETER EASON
NEA Science Staff Correspondent

WASHINGTON, Dec. 10.—One of the things that is most difficult for people to understand is how little is really known about "atomic energy," says Dr. H. W. Wenzel, who was chief of the research section of the U. S. Army Manhattan Engineer District which developed the atomic bomb.

"There is a general impression that because the atomic bomb has been perfected the whole subject of atomic energy is now an open book," says Dr. Wenzel. "That isn't the case at all."

To tell the correct story on what is an unlimited future there is to the development of atomic energy, Dr. Wenzel makes a comparison of atomic science with chemistry. Despite all the chemical formulas and equations known today should be just a drop in the bucket.

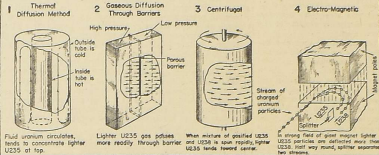

Some have discovered that when hydrogen and oxygen together in the right proportions, will explode. That is all. They know that water, that in itself would be a wonderful discovery, but compared with what's about as much as we know about atomic energy, it's a drop in the bucket.

Carry this comparison one step further. Suppose the first element, hydrogen, having put hydrogen and oxygen together to make water, claims, "They know they can burn it, they can make lead out of gold, or trying to make gold and mercury, etc."

Dr. Neil H. Grassick Elected Member Royal Canadian Institute

THURSDAY, December 10.—Plastic surgery was performed on Harry Truman, who is 58 years old, during the first war. Dr. Stuart D. Gordon, chief plastic surgeon of the department of veterans' affairs, said that while attending the Royal Canadian Institute recently in Ottawa, Canada, he met Dr. Gordon, formerly an army colonel, and who was the first to perform plastic surgery on a Canadian soldier. Dr. Gordon, who was the first to perform plastic surgery on a Canadian soldier, was discovered by Canadian soldiers in England, who were the first to perform plastic surgery on a Canadian soldier.

MINISTERIAL ASS'N OPPOSES INCREASED LIQUOR OUTLETS

The Pension Pains and District Ministerial Association held its regular meeting at the home of Mr. and Mrs. W. J. Stewart, Victoria Road, The River, N. Green, previous and welcomed to the Association by Pepper who has recently been appointed to the Association. The meeting opened with prayer and the 46th psalm was read.

After ordinary business the president day minutes of the liquor trade was brought to the attention of the meeting. Several members voiced strong disapproval of the manner in which the liquor business is handled in this province. It was noted that each day, newspapers carry several reports of serious motor accidents and crimes resulting directly from indulgence

First Christmas Concert Held

Haliburton, PMS.—The village's first Christmas concert was held Friday under the auspices of the Salvation Army and a delightful program of music and song was presented by citizens of every denomination. Mr. A. C. O'Connell was chairman for the occasion. The festive and Christmas Christmas Association meeting. The Association went on record as saying that, "In the immediate vicinity of the homes of some of the members there have been numerous motor accidents in recent months because drivers, under the influence of liquor, were unable to control their cars. It was pointed out to members that, at times, people are seen leaving their parlours, unable to walk straight, yet they proceed to drive their cars. The Association contended that such drivers are a great danger to the safety of the public and that it was being greatly regretted that this liquor evil, which ruins homes and leaves people, especially children, injured in misery, is on the increase. It was heartily agreed by members that they as a group of Christian ministers must be alert and actively opposed to such evil. A motion was unanimously passed to the effect that: "This Ministerial Association go on record as denouncing the sale of control of the liquor business, and the widespread use of alcoholic beverages, with the consequent increase in crime, broken homes, ruined homes and lives, and unnecessary poverty. And, that this Association stands opposed to any increase in the number of outlets for the sale of liquor but favours a decrease in the number of such facilities." At the conclusion of the business session the monthly noon was given, the speaker benefiting much from the enthusiastic discussion which followed. Mrs. Stewart, as hostess, served a delicious lunch and an opportunity was provided for informal chat. The meeting then adjourned, to meet again in January in Preston Park.

by two young members of the Salvation Army Sunday School. The program was planned and directed by Miss Whitaker, and was well carried out. The concert opened with the singing of "Silent Night" which was followed by the primary girls singing "Joy to the Saviour". A Christmas dialogue by nine little girls and a recitation by Miss Whitaker were well received. In a cowboy costume, Capt. Ray Hunscomb sang some very well chosen numbers with guitar accompaniment. A chorus by all the young folks was enjoyed, it was a dialogue by six girls entitled "Christmas Dolly". The girls' glee drill in their smart new uniforms was a delightful number. Four boys, Lewis Hodgson, Harold Whitaker, Austin Barnes and Donald Hanson presented a skit entitled, "A Xmas Odeur".

The announcements—offering and words of appreciation—were followed with the visit of the Christmas Spirit by the Young People's group. After several choruses Santa Claus arrived and all children under four years of age, members and non-members, received a gift. Home plates, candy, popcorn and nuts were served to everyone present.

CHRISTMAS DINNER The Christmas Banquet under the auspices of the United Church W. A. was held with much merriment. The sale of handicraft, hand-woven articles and knitted wear were quickly sold. The discussions were beautiful and tastefully arranged. Mrs. William Walz, Mrs. W. W. Amberg and Mrs. Walter had charge of the table laden with home cooking, much was also sold, consisting of many cookies, doughnuts, milk and cake.

The ladies were arranged and several enjoyed tea and hot dogs.

QUANTITY BRINGS FORTS When any plant is cultivated on a large scale various diseases and insect pests appear.

C. E. WEEKS,
Manager.

Dated Dec. 15th, 1935

Mrs. M. Moynes Entertains W.I.

Pleasant Valley, PMS.—The December meeting of the Pleasant Valley W. I. was convened at the home of Mrs. May Moynes. The attendance was small due to the inclement weather but a real Christmas spirit prevailed throughout the meeting. The 1st Vice-president, Mrs. W. Crawford presided. The minutes of the last meeting were read by the Sec. Treas. Mrs. George Lee, and approved. Correspondence was considered and the Roll Call, "God

send us Mink for Britain", was taken unanimous to \$4.00. A signed paper on the "First Christmas" was read by Mrs. George Lee and was very interesting. The following program was then opened. Community singing of two Christmas Carols, "Silent Night" and "O Come O Come the Midwinter" led by Mrs. John Smith. "Parable for Mothers", recited by Mrs. Elmer Morrison, "Lucky Boy Content", humorous "Christmas reading" by Mrs. May Moynes; and a Christmas reading by Mrs. John Smith. "Let us keep Christmas".

It was decided to hold the January meeting one week later than usual in January. This meeting is scheduled to be held at the home of Mrs. William Crawford and the Roll Call would be "New Year's Resolutions". The speaker chosen was Mrs. A. McGee and the Program Committee—Mrs. George Lee, Mrs. Floyd Dewell, Thomas, Mrs. Dorian Moore, Mrs. Marie Smith and Miss Edith Moffat.

The collection was then taken and the meeting closed with the National Anthem. Devout refreshments were afterwards served by the hostess and

her assistants and a social time enjoyed by everyone.

EARLY CULTIVATION Founded in the Egyptian Nile valley at a time when all Egypt was living in stone age barbarism.

Mrs. R. Walker Is Hostess For Xmas Meeting

On Thursday afternoon, December 14, Mrs. R. Walker, 14141, at the Little Britain Hospital. Sunday, December 17, 1945, at the Little Britain Hospital. Sunday, December 17, 1945, at the Little Britain Hospital.

The members then joined in singing Christmas Carols. As this was the hostess's birthday everyone sang "Happy Birthday."

A very splendid paper on "Christmas" was given by Mrs. R. Walker. The Roll Call was answered by each member drawing an article, wrapped gifts from a Christmas tree which was passed by the hostess.

Mrs. R. Walker was called upon to give a short address, which was very interesting. The Roll Call was answered by each member drawing an article, wrapped gifts from a Christmas tree which was passed by the hostess.

Lorne Cooper Heads Legion At Haliburton

Haliburton, Dec. 17 (P.N.S.)—The Christmas meeting of the Haliburton Branch of the Canadian Legion was held in the Legion Hall, at which a new slate of officers was installed for the coming year, and at which are mostly new members of the Legion. This will mean much to the success of the branch of the Legion.

Mr. Lorne Cooper, of West Gullford, who has recently returned from overseas was elected President, and he and his newly-elected committee say they have great plans for the future.

The officers elected are: Past President, Mr. J. Vickers; President, Mr. Lorne Cooper; 1st Vice-President, Lloyd Cooper; 2nd Vice-President, Lloyd Cooper; Treasurer, Mr. Lorne Cooper; Secretary, Mr. Lorne Cooper; 1st Vice-President, Lloyd Cooper; 2nd Vice-President, Lloyd Cooper; Treasurer, Mr. Lorne Cooper; Secretary, Mr. Lorne Cooper.

The Roll Call was answered by each member drawing an article, wrapped gifts from a Christmas tree which was passed by the hostess.

"Eileen, kids, baby Jones" Holy
Shelton, you've got sick mad!

THIS is a special kind of Christmas—the first in seven years without the darkness of war.

At last we are free to celebrate the season in the old-time way.

Our loved ones are home. The candles will gleam brighter now, the balsam boughs will breathe a more pungent fragrance, and more sweetly than ever will carols ring... as if in answer to a world's prayers for peace.

But none will forget—now or ever—those fallen

sons who sacrificed their lives that we might know the joy of Christmas again.

In their honour and to their glory we worship at home and shrine. And in our hearts shall we resolve to do those things which keep us strong and in the right—the best way of all to banish war forever.

In this, we shall be men who think of tomorrow—men of good will, making sure of better Christmases to come.

MILBROOK
Mr. and Mrs. Carl Smith of Port Hope were Sunday visitors at the home of Mrs. Annie Powell, and Mrs. Helen J. Armstrong on Sunday.

Sunday callers on Mr. and Mrs. Arthur Brown were Mr. and Mrs. George Brown, Mr. and Mrs. J. C. Brown, and Mrs. Emma Wilson of Cramo, Mr. and Mrs. Robert Heagles of Port Hope, and Mrs. Mary Dorely of Port Hope.

Miss Margaret Brown had a very pleasant and relaxing few days at the home of Mrs. Harold Martin who has been overseas for about four years arrived at the home of his parents, Mr. and Mrs. Robert Martin, Sunday morning.

BLACSTOCK
The W. M. S. of the United Church met at the home of Mrs. Nor. Ferguson, Mrs. James Wright, Mrs. Mary Wright, and Mrs. Mary Wright. The study book on Africa proved to be most interesting.

The W. M. S. held a crochets party recently in the basement of the United Church. Funds for the home of the Red Cross were raised. The party was very successful and the funds for the home of the Red Cross were raised. The party was very successful and the funds for the home of the Red Cross were raised.

The District Orange Lodge held a basket social and dance in the Community Hall, recently with Ruth Wilson's Variety Band supplying the music for the evening. Major Clarence and Mrs. Blainston and three daughters, Colquhoun, Colquhoun, Mr. D. King, Little Britain, Mr. and Mrs. Owen Brown and family visited Mrs. Robert Bruce and Miss King. Mr. Clarence Park, Ramanville, spent Sunday with his mother, Mrs. Robert Park.

Miss Wilma Vancouver, Toronto, is spending a few days at the home of her parents, Mr. and Mrs. W. J. Vancouver, Toronto.

Mr. and Mrs. Carl Darrell, Mr. and Mrs. Stanley Malcolm, and Mrs. Helen Malcolm, all of Toronto, are spending the week-end on Wednesday and heard John and Mary.

Mr. Donald Gausby, Trinity College, Toronto, conducted the afternoon service at St. John's Anglican church, Mr. Gausby was entertaining at the home of Mr. and Mrs. McLaughlin, Toronto.

Mr. T. Langford is visiting her sister, Mrs. Mary White, Barton, Toronto, with her parents, Mr. and Mrs. Harry Epperson.

Mrs. Laverna Campbell and small daughter, Dorothy, are spending the week-end at the home of Mr. and Mrs. Ernest Larmar during the week-end.

Miss Mary Brown, of Port Hope, Ontario, visited the friends of her parents, Mr. and Mrs. Percy Brown, of Port Hope, Ontario.

Tax Changes Affecting Private Companies

Draft Legislation has been introduced in Parliament covering proposed amendments to the Income Tax Act.

These amendments include the new provisions relating to private companies, commencing some of the recommendations of the Lves Commission.

We shall be pleased to forward, on request, copies of these provisions which deal with Private Companies.

Please write, or telephone Waverly 3581.

HELP THEM FIND A PLACE TO LIVE

Six years ago this month Canada's First Division landed in England. On the 25th of December, 1939 they spent their first Christmas away from home. This year thousands of them returned. December 25, 1945, will see them reunited with their families for their first Christmas since 1938.

There is provision under Wartime Prices and Trade Board regulations for short-term leases of five months or less in which the non-eviction regulations do not apply. Accommodation for five months or less would see many veterans over the winter period and would give them an opportunity to find more permanent accommodation.

It is a day they have looked forward to for many years, but for thousands of them it won't be a real Christmas if they will not spend it in their own homes. They will be eating Christmas dinner in restaurants. It will not be the Christmas they expected.

There is provision also under which a large portion of the money received for rent of rooms can be exempt from income tax if the revenue is designated as the income of the wife or blood relative. Two-thirds of this income may be deducted as expense.

You Canadians who have unused space in your homes, however, can help. You can make this unused space available to a veteran. You can provide them with a place where they can be together with their wives and their children.

Canada's veterans need accommodation and need it badly in every section of the Dominion. They are looking to Canadians who can assist them in this emergency. Won't you be a good neighbour and rent to a veteran?

If you have space which you can make available, list it with the Citizens' Rehabilitation Committee, or the local branch of the Canadian Legion; advertise it in the newspapers or list it with a real estate agent; or inquire at the nearest Rental Office of the Wartime

Prices and Trade Board about five months or less rental agreements. These are exempt from normal Wartime Prices and Trade Board non-eviction regulations. The real estate industry will help many veterans through the winter.

WANTED

Starting January or February, a smart young man or woman willing to take responsibility of operating and managing a small well established restaurant and bar, with counter business. Owner requires a good honest, reliable person, who understands or is willing to learn the business.

Steady employment, holidays and an opportunity to get ahead. Profits available to the right person.

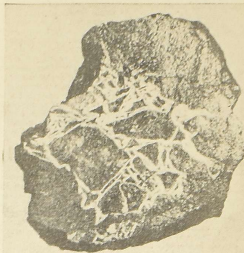

For Further Information Write to: C.C. BELLAMY, Bellamy's Lunch, Lindsay, Ontario

CHAIRMAN OF THE LINDSAY REHABILITATION COMMITTEE

COL. R.I. MOORE, Lindsay, Ont.

Censorship Veil Raised From Eldorado, Source of Atomic Power Material

Editorial note.—This is the first of a series of articles on the Eldorado mine, in Canada's far north, where uranium is mined for atomic bombs and research. The author is a famous Canadian writer whose articles in 1929 first made known to the world the story of the discovery of the radioactive deposits at Great Bear Lake. In this installment he paints with a broad brush a sketch of the Eldorado community as it appeared before the war, and he will fill in the details and discuss the important part Canada is playing in the development of atomic power.

By LESLIE McFARLANE

When Lord Haw-Haw broadcast a shortwave threat from Berlin one day in 1943 that the Axis would soon "blast Port Radium and Norman Wells off the map" he broke big news to a tiny Canadian community just below the rim of the Arctic Circle.

For the first time, the workers at Eldorado mine learned that Port Radium, their obscure little camp on Great Bear Lake, was rated a top military objective by the Axis.

They did not know even then that they were living through the most dramatic of all chapters in the history of Eldorado—a mine that had become legendary from the day of its discovery in 1929.

For Eldorado, one of the great world sources of radium, had entered a vast and secret phase.

Shut down in 1940 when the war crippled the company's export business, the property had reopened in 1942 as a defense project. Security laws were rigid. A news blackout surrounded the operation. But that Eldorado was any more important than dozens of other top priority projects was never suspected by the isolated people of Port Radium—until the enemy told them.

Even then they did not realize the full magnitude of the secret of which Eldorado was a vital part. They had no knowledge of that until the secret exploded on the world in the violent blaze of uranium light that was the dawn of the atomic age.

The community of Port Radium, the secret Montreal laboratory of the Department of Munitions and Supply and the National Research Council, the Eldorado refinery at Port Hope and the Defense Industries plant at Chalk River—all government owned—were the four top secret sites in the Canadian war production picture in the latter years of the conflict. The quadrangle was based on Port Radium and Montreal.

Port Hope, Chalk River and the Montreal laboratory are still on the secret list. The operations there are still hidden from public view. But the curtain that shrouded Port Radium from the eyes of the world has been raised.

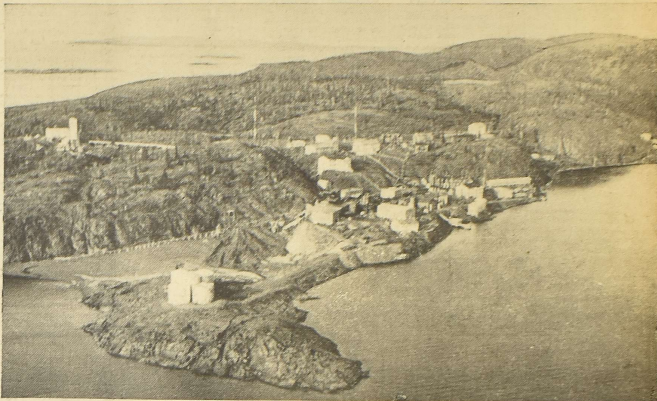

A few weeks ago the little settlement had visitors from newspaper and magazine writers and a government photographer. The first visitors, aside from accredited employees and officials, to reach the property since 1942.

One thousand air miles north of Edmonton, soaring above a region of infinite loneliness and desolation, these visitors saw the vast expanse of that inland sea, the Lake of the Great Bear.

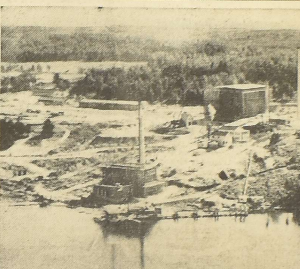

Twenty years ago it was known only to nomadic Indians, to trappers, traders and a few scientists. A hard, bleak, lost land. The remote living place nature's most fantastic secret. For this is the country that bred the source of atomic fire.

And as visitors wandered into this region, gray and wind-swept as an elephant's hide, they saw the rock faults and strange gorges of discorded time that caught President Gilbert Labine's insight early in 1929. These were the clues that brought Labine back to the folding land the following year on a quest that ended in his discovery of pitchblende—the key to the only known deposit of pitchblende in the back rocks.

Down there on dark slopes the visitors of 1946 saw

Owned by the Dominion, Eldorado mine at Port Radium on Great Bear Lake near the Arctic Circle puts Canada in strategic position as source of uranium for atomic power.

hordes of little buildings, Port Radium had surface buildings of a mine. Cookhouse, mess hall, hospital, a small community seat, clean, well-kept, a settlement of 250 people. Such self-contained "company camps" are indigenous to the mining country and Port Radium differs outwardly but, under the trim, formal, surface, from the usual pattern.

However, the secret atmosphere that surrounds this mining camp sets it all other.

Here in the sub-Arctic the factors found a little patch of modern civilization. Electric power from a fuel oil generating plant. A recreation hall with billiard tables, motion pictures, a library. Hospital with X-ray equipment and fluorescent lighting.

It is a community that self-cleaning at night, even in all those in a city suburb, warmed by central heating.

Port Radium, in fact, has in the area a standard of living level of civilization that most communities, because here is a place where mine and sickness are virtually unknown. Police, man and deer have little to do.

The blessing of electricity and the amenities of recreation are more than mere creature comforts. They are needed, because the men, women and children come to live in a violent and life-threatening land.

This is a region where the sun shines from midnight to midnight in early summer, where it is never seen at all in early winter and one lives in twilight and darkness. The sub-Arctic, with its wild storm and bitter cold. The land beyond the border.

At the heart of the territory, 60 miles away, is the Harbours, where the Arctic Ocean lies. To the west, the turbulent waters of Great Bear Lake. To the south, the mining camp of Yellowknife 260 air miles away and Edmonton 700 miles farther off.

Yet here in the middle of nature's most work, live happily, raise families. To the dozen children of the camp, to the young mothers and the Harbours boys and girls, to the men and the women, to the babies of the one family, to the babies of the one family.

At the heart of the territory, 60 miles away, is the Harbours, where the Arctic Ocean lies. To the west, the turbulent waters of Great Bear Lake. To the south, the mining camp of Yellowknife 260 air miles away and Edmonton 700 miles farther off.

Designed by engineers of the National Research Council, this supersecret pilot plant near the River, Ont., will be important to peacetime development of atomic power.

Port Radium is a place where men must be adjusted to circumstances of climate and isolation. A community must grow, where social differences are unknown. Where no one wears smart fashions and where people get along because they are all in the same boat.

To the 260 men to the hard rock miners of the underground camp, to the surface workers and the men of the office staff, to Mr. William Baker and R.C.M. Constable Mike Harrington and to Staff Sergeant G.D. Johnson of the R.C.M.C. in the station, Port Radium is the place where a man makes his own adjustment to the job. A man can make his own adjustment to the job. A man can make his own adjustment to the job.

All life here revolves about the mine. And the mine is a place where men of a dozen different backgrounds (labor in the tunnels below the level of Great Bear Lake, the men, pump-fight an unending task. And the mine from which come the raw materials of atomic research—the stuff that brought about the greatest revolution since the dawn of time.)

This, this tiny settlement and the work that goes on here are part of a great story, a romance that will have a high place in the history of the age. This is the story of the age. This is the story of the age. This is the story of the age.

Of these things, more later. But the people of Port Radium know what Lord Haw-Haw may have guessed and what the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire.

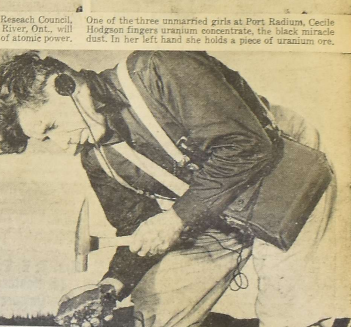

Of these things, more later. But the people of Port Radium know what Lord Haw-Haw may have guessed and what the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire.

Of these things, more later. But the people of Port Radium know what Lord Haw-Haw may have guessed and what the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire.

Of these things, more later. But the people of Port Radium know what Lord Haw-Haw may have guessed and what the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire and the Axis powers of Eldorado held fire.

One of the three unmarried girls at Port Radium, Cecile Hodgson. Her fingers uranium concentrate, the black miracle dust. In her left hand she holds a piece of uranium ore.

The Geiger machine, apparatus for detection of radio-active ore, is used to prospect for further deposits in Great Bear Lake region. Controlled by the Dominion, only prospectors of the Eldorado field staff are allowed to use it.

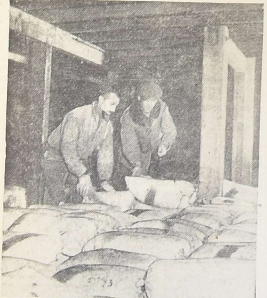

Aircraft of Canadian Pacific Airlines provide express, mail and passenger service to Port Radium. Government gave Eldorado top priorities on supplies. Still the same, transportation costs about: price of eggs to \$1.00 a dozen.

At top is natural photo of a piece of Eldorado ore with network of pitchblende veins. Bottom is a radiograph of the same ore showing pitchblende radiating its energy.

Mrs. Henry Howard, wife of the manager of Eldorado mill, was only once hunched pie from local cranberries but also finds time to assist her husband in his laboratory.

Stored in the hold of the lakeboat, "Great Bear," these are 100-pound bags of pitchblende concentrate bound for Port Hope, Ont., two months away, for refining processes.

BRITISH UNITED PRESS

All the rationing restrictions in Canada will be lifted as of Jan. First, it was announced by Ottawa today by Munitions Minister C. D. Howe.

Emphasizing that the lifting of the rationing does not mean that present shortages of food and clothing can be met immediately. The Minister said that "Producers are working hard to get the food and clothing public will continue to cooperate during the stages by which a drafting committee had worked all day yesterday and again this morning."

The Big Three Foreign Ministers held their last formal meeting of the 11-day atomic bomb and peace conference today to ratify the draft of a final communique covering all the issues on which they have reached agreement. The three principals and their delegations went into conference at 2:30 p.m. to wind up their business and initial the communique on which a drafting committee had worked all day yesterday and again this morning.

Weather permitting, U.S. Secretary of State James F. Byrnes and British Foreign Secretary Ernest Bevin were expected to leave Moscow by plane tomorrow.

The United States Government will be reported by 100 teams of six observers each during the Greek elections scheduled for March 31.

The State Department announced today. Six hundred Americans will be the State Department's representatives in the Henry F. Grady, former assistant secretary of state.

They will be stationed throughout Greece before and during the election. The representatives will be polling conforming to the United States request for democracy.
